

Product name: STEINGLANZ WAX ISABRASIVI
Kind of product and use: Wax in paste for marble and granite polishing

TYPICAL VALUES raw material components

Crystalline wax.....10-30%

Tetrachloroethylene70-90%

PRODUCT DESCRIPTION:

Steinglanz wax is it a synthetic wax for use on light and dark colored surfaces. Steinglanz Wax will enhance the color of the stone and provide a protective seal to help prevent staining and the severity of etching caused by acid based products. Produces a high gloss and shine. May be applied by polishing machine.

PHYSICAL AND CHEMICAL PROPERTIES:

Physical state	solid paste
Colour	semi-transparent
Odour	characteristic
Flammability	not flammable
Hydro-solubility	not soluble

SAMPLE TESTING: before using, always test each surface to be treated in a small inconspicuous area to insure the desired results will be achieved. For further information and precautions consults Material Safety Data Sheets.

INSTRUCTIONS

1. Remove any furniture from the room. Tape off moldings with masking tape and cover the bottom sections of the walls with paper or plastic.
2. Allow the floor to dry thoroughly.
3. Apply a thin even coat to the floor with a clean soft and dry cloth : spread 1 tin of wax for floor of approximately 15sq. meters
4. Pass the polishing machine backward up to make the floor more brilliant.
5. Stop and check the floor periodically to see if the desired shine has been achieved.
